Maxi Perforated Panel

The quiet achiever perfect for your acoustic needs

The 'quiet achiever' of our range, Maxi Perforated Panel delivers a stylish design solution to meet all your acoustic needs.

Designed to dampen and attenuate sound in a wide range of interior settings, with Maxi Perforated Panel, aesthetics and acoustics can go hand-in-hand. An ability to achieve an NRC of up to 0.8 without sacrificing on style makes Maxi Perforated Panel highly suited to corporate offices, entertainment venues, sporting and education facilities and so much more.

Maxi Perforated Panel is available in a fantastic range of plywood timbers and finishes, including hardwood and plywood veneers. Additionally our hard-wax oil finishes in your choice of Maxi Colour gives you absolute versatility to create a unique design with impeccable acoustics.

Delivered pre-finished and ready for installation, complete with a standard black acoustic backing, Maxi Perforated Panel provides the perfect all-round solution for every project where acoustics are an integral part of the design.
