Customs House Library, Sydney NSW

Faculty of Law Library, University of Sydney, NSW

The Corso, North Lakes Qld

Health & Support Services Library, TAFE NSW Western Sydney, Kingswood NSW

Smart Solutions for Commercial & Public Buildings

Global market, technology and environmental trends are transforming the way businesses and governments function in modern society. Commercial and public facilities are quickly evolving to meet the changing landscape. In addition to aesthetic features that inspire and motivate, today's building designs must also reflect spaces that are efficient, accessible and sustainable.

At Supawood, we understand the challenge of keeping up with the changing environment and strive to develop innovative products to meet new demands. Our products have greatly contributed to the development of inspiring business and community spaces where people love to gather.

With extensive commercial and public experience, we can offer expert advice and multiple options to suit your client's project and budget. Our lining systems meet stringent fire rating, waterproofing and Green Star requirements and come in a range of tried and tested acoustic solutions and creative finishes.

LIGHTING

This can be incorporated between slats, beams and panels or set into slatted and flat panels in a regular pattern. Other lighting such as pendent lighting can be hung from or between panels.

AIRCONDITIONING DIFFUSERS

Linear diffusers can be placed between beams and slats, concealed in services zones, or square diffusers can be used to fill a half panel space.

OTHER SERVICES

Fire sprinklers, smoke detectors and other services can be set out neatly between panel components or centred in panels wherever possible.

ACCESS PANELS

Hidden access to services in the wall or ceiling cavity is an option available across our range. Our SUPATILE ceiling tile products will provide full accessibility across the entire ceiling.

Supawood can adapt an innovative solution for your unique design requirements. We look forward to partnering with you on your next commercial or public building project.

Call us on **1800 002 123** or email sales@supawood.com.au to book a no-obligation appointment.
