

Rib Cladding

Cladding

Fascinating shadows

Boldly corrugated for extreme drama. Rib Cladding, in Western Red Cedar, is an exciting new product from Cedar Sales. Available in overlap or tongue and groove profiles, Rib Cladding is a modern alternative to corrugated iron. It balances the boldness of defined ridges with the natural beauty of timber. Rib Cladding uses perfectly even furrows to produce dramatic shadows and highlights. Use horizontally or vertically.

Rib Cladding features and benefits

- Tongue and groove profile is interchangeable with Cedar Sales 'Castellation Combinations' profiles
- Overlap profile available in two sizes which have machined drip grooves for superior weather protection
- Can be painted or stained
- Excellent insulation and acoustic qualities

Get creative!

See next page for ideas and inspiration, using Cedar Sales Combinations.
