

Exclusive State Agents Required for Leading Edge Aluminium Composite Panel ; Architectural Facades.

National Resources Pty Ltd are the exclusive Australian Distributors for this range of high quality, sustainable architectural products, installed on landmark commercial, civic and private developments around the world.

ALMAXCO manufacture state-of-the-art aluminium composite panels (ACP), which are currently supplied to 35 countries. Almaxco already has a proven track record, here in Australia, but we are looking to expand our market footprint further. National Resources seeks to identify exclusive State Agents, that have an experienced sales force, and a history of involvement with architects, property developers, building practitioners and product specifiers. The following support will be offered to successful agents:

- National Resources will centrally warehouse a local stock holding of major colours and sheet sizes, and offer tailored payment terms to support growth strategies.
- National Resources and Almaxco will commit considerable resources to training each exclusive state agent.

Almaxco products are leading edge and offer several advantages in their architectural panel product range:

- Almaxco ACP offers a range of cores, including the option of Australian Standard AS/NZ 1530.1; CSIRO approved non combustible fire rating.
- Almaxco ACP offers class leading warranties for the Australian market.
- Almaxco ACP offers the option of Nano – Self Cleaning/ Anti-Graffiti Technology.
- Almaxco ACP offers a fantastic value proposition against established competitors.
- Almaxco ACP offers shorter project lead times , with ex factory or custom made sizes and colours delivered to site within 10 weeks from order, subject to client's size/colour/alloy/core specification.
