WELCOME

SHUTTERS // THE COLLECTION

Welcome to the Australian, NZ and Pacific Collection of Product Brochures.

Louvretec is pleased to introduce a new range of internal and external aluminium louvered shutters.

The range includes sliding, hinged and bi-folding systems, with the louvre panels available as fixed blades or operable with three distinct operating systems to choose from.

This brochure covers our Shutters product range and is number 4 of a Collection of 6 brochures. Please refer to the back cover for details of the full Collection available.

INTERCHANGEABLE SYSTEMS

Elegance and versatility are key design elements incorporated into all our systems. This enables a unique "mix & match" design approach to ensure an ideal customised solution for any intended project.

LOUVRETEC QUALITY

From high rise to low rise, high wind zones to sheltered interior fit outs, residential or commercial, we can offer a range of quality, fully engineered modern options.

Thank you for taking the time to consider our products, we hope this brochure provides some fresh new ideas and that we may be of service to you.

FIXED & KISS PIVOT SLIDING DOOR & SHUTTER SYSTEMS

70MM MINI LOUVRE, 90MM, 150MM MIDI LOUVRE

Sealed with a Kiss – Louvretec is pleased to introduce a new range of internal and external aluminium louvred shutters.

The louvres are designed around an elegant, simple to operate hand opening pivot system - the Kiss Pivot.

// Kiss Pivot is designed specially for use in a new range of three mini and midi louvre systems

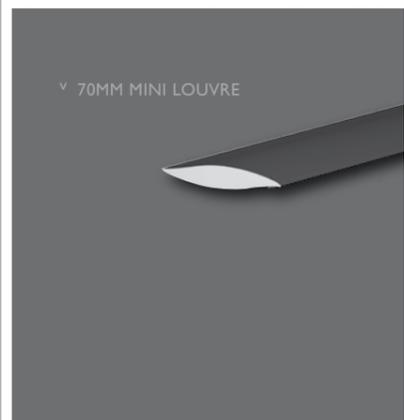

// 150mm louvre also available with spiral pivot.

Ease of operation, innovative design and the choice of three blade sizes enables Kiss Pivot louvres to span unprecedented widths for hand-operated louvres.

SUPERSLIDER 100 SLIDING DOOR & SHUTTER SYSTEMS

95MM SUPERSLIDER LOUVRE

SuperSlider 100 – the ultimate sliding shutter. This latest addition to the Louvretec range comes with an impressive number of features and benefits:

LOUVRES FIT WITHIN THE FRAME

// Even when fully opened the louvre blades do not extend beyond the width of the door frame ensuring a clean elegant look

INTERNAL PIVOT SYSTEM

// A new 95mm elliptical midi louvre fits snugly at all times within the outer frame

// An internal geared rack and pinion pivot provides for easy finger touch operation

// The louvres can be opened as one panel, or segmented with the top blades opening separately to the lower ones.

// TWO PANEL SLIDING DOOR

SLIMLINE 60 SLIDING DOOR & SHUTTER SYSTEMS

58MM SLIMLINE LOUVRE

Slimline 60 – the smart shutter design. This smaller blade version of the Superslider 100 comes with its own unique features:

LOUVRES FIT WITHIN THE FRAME

// Even when fully open the 58mm louvre blades do not protrude beyond the door frame width

INTERNAL PIVOT SYSTEM

// The same internal geared rack and pinion pivot system used in the Superslider 100 is also used to operate the Slimline 60

OPTIONAL LOUVRE ADJUSTMENT

// Choose to either open or close the blades by adjusting the louvre itself or use the Louvre Adjustment Dial

FIXED BLADES

// The Slimline 60 also incorporates a unique packer system for fixed blade options, providing a strong economical fixed panel.
