# At Karndean we see flooring differently...

We travel the world in our quest to bring you exceptional floors that inspire and delight. From the ancient forests of Europe, to the remote Australian outback and beyond, we seek out expressive and intriguing forms in the natural world to influence our unique floor designs.

By combining these original features with cutting edge design, we create simply beautiful floors that you'll love for a lifetime.

# Why Karndean?

All the benefits of Karndean Designflooring...

### Realistic wood and stone designs

Inspired by nature, our products are designed in-house and realistically replicate the look and feel of real wood and stone materials.

### Lifetime warranty

Designed to give you peace of mind, every Karndean floor is guaranteed to last for years to come.

### Waterproof

Karndean's waterproof floors stand up to spills of all sizes and won't swell, crack or warp when wet.

### Pet friendly

From muddy paw prints to household accidents and anything in-between, Karndean's low-maintenance floors are designed with pets in mind.

### Kid friendly

Karndean floors offer children a safe and comfortable space to play, and parents a durable, easy-to-clean surface.

### Environmentally friendly

All Karndean floors are 100% recyclable and environmentally friendly.

### Compatible with underfloor heating

For added warmth, Karndean is perfectly suitable for underfloor heating systems up to 27°C.

### K-Guard+

We use K-Guard+ surface technology for scuff and stain resistance ensuring there is no need to apply an additional surface treatment following installation.

### Easy to clean and look after

A sweep and mop with Karndean Clean is all you need to keep your Karndean floor looking great.

### Hygienic

Unlike carpets, our floors don't hold dust, dirt, pollen or other allergens.

### Durable

Compared to other flooring alternatives, Karndean gives you the look and feel of natural products but with the durability and resilience of luxury vinyl.

### Quiet compared to other hard floors

Karndean is quieter underfoot compared to most hard flooring alternatives.

### Comfortable underfoot

Our products are softer and warmer underfoot than natural wood and stone flooring.

### Resists indentation

All Karndean floors stand up to the impact of day to day life.

# Product overview

## We offer three types of product:

Gluedown, loose lay and rigid core.

Below is a guide to which product type may suit your space. Each product offers various benefits for different applications. To find out which product best suits your needs, we recommend you speak to your local flooring retailer.

### Gluedown

Our gluedown ranges are individual planks and tiles that are stuck down using permanent adhesive. Gluedown works best when looking to...

- Personalise your space with design elements
- Select from a wide range of designs, colours and sizes
- Pick from a range of price points to suit different budgets

For more information on our gluedown ranges please see page 24.

### Loose lay

Our loose lay ranges are individual planks and tiles that have a friction grip and acoustic backing. Its friction grip backing can be stuck down using a tacky adhesive. Loose lay works best when looking to...

- Individually replace planks or tiles
- Reduce noise levels
- Install over most existing hard floors

For more information on our loose lay ranges please see page 140.

### Rigid core

Our rigid core product, Korlok, is a floating floor with a click-locking mechanism that clicks together individual planks. It has an inbuilt acoustic backing that requires no adhesive. Korlok works best when looking to...

- Preserve your existing floor
- Reduce noise levels
- Install over most existing hard floors

For more information on our rigid core range Korlok please see page 178.

In addition, all three products offer all the following benefits...

- Realistic
- Comfortable underfoot
- Pet friendly
- Durable
- Hygienic
- Kid friendly
- Waterproof
- Environmentally friendly
- Compatible with underfloor heating
- Low maintenance
- Lifetime warranty

# Our ranges

## The right look for every room

We know that style is personal and every space is different. To help you find the right floor for your home, see what each of our ranges has to offer:

Wood Stone

	✓	✓	Lovingly created to reflect the natural materials that inspired them. These planks and stones give you timeless craftsmanship at your feet.
	✓	✓	Smooth slender planks and richly textured tiles with a modern twist. Bevelled edges create distinct definition.
	✓		The character of real timber in a wide range of designs including distressed, reclaimed and limed woods.
	✓	✓	Fresh and contemporary. Available in larger plank and tile sizes. Simple lines and sleek design combine to create a clean, modern look.
	✓	✓	A wide range of planks and tiles at our most affordable prices ensures there's something for everyone.
	✓	✓	Large format 1500mm x 250mm planks and Australian wood designs.
	✓	✓	Quick and easy to install over most existing hard floors.
	✓		Due to its K-Core technology, Korlok benefits from quick and easy installation with a 5G® click-locking mechanism and its pre-attached backing offers excellent acoustic properties.

# What is Designflooring?

The beauty of Karndean is that you can take any of our products and, with a little imagination, create your own design within minutes.

When deciding which Karndean flooring you want to use, the advice we always give is to make sure you consider what is going to tie everything together and make most of the space. Look at the cabinets, the wallpaper, countertops, furniture and use these different elements to help you to decide which type of flooring is going to look best.

See **page 130** for our fold-out **Guide to Design Strips, Borders and Features**.

■ Sable CER16 with AF06 3mm design strip and Davyne border, see page 68.

## Wood

Let's look at one of our Da Vinci Wood products, **RP73 Kenyan Tigerwood**

*You can simply lay it straight to create a traditional plank floor...*

*Or try a twist and lay it on a 45 degree diagonal...*

*Perhaps add a design strip to frame the edges of your room...*

*Or try a combination of effects to define spaces or just for that wow factor...*

## Stone

Using one of our Knight Tile Stone products, **ST14 Cumbrian Stone**

*Tiles can be laid directly edge-to-edge for a full stone effect...*

*Or add a design strip for a grout effect. Either in a brick bond pattern...*

*Or create a herringbone pattern...*

*Add a border to complete the look...*

# Take the example of a kitchen installation

The first decision is: **wood or stone?**

If your countertops are wood butcher block, you could opt for a wood design in the same shade or a contrasting shade. However, in this case, as there is a lovely mottled cream and grey granite to work with, we felt that stone was the way to go.

Next we needed to pick our **main floor tile**

and for this kitchen we decided on Knight Tile's Portland Stone as it highlighted the robin's egg blue of the cabinets and the grey and black specks in the countertop. Visually, the rectangular shape helps to make the space look wider.

Once the main floor is chosen you can then start the fun part of choosing your **design components.**

As this is a stone design, we first considered whether or not we wanted to add a strip. You can go without, however a strip makes more of a statement so we definitely wanted one.

We narrowed it down to two: **ST5 Soapstone and DS10 Luna.**

We decided on DS10 as it is smooth with minimal texture and the white gives a clean and minimalistic finish to the floor.

But for this floor we went for a brick laid effect to add more visual interest in the space.

You could lay the floor straight with the strip.

Now this floor could be finished, but...

**we weren't quite done yet!**

We offer ready made borders that go perfectly with these tiles.

With three borders to choose from, we opted for the Light Mosaic border to keep the space nice and light. It really worked and is the perfect finishing touch to this space.

With Karndean it's not just about laying the floor, but also how you design it. Just by reading the space and paying attention to detail, it's easy to create a stylish look that is unique to your home.

# Karndean in the Kitchen

The kitchen is the hub of the home and without a doubt the room where your floor works hardest. From accidental food and drink spills to the hustle and bustle of rushed mornings, parties and gatherings, your kitchen floor has to put up with a lot. A Karndean floor in your kitchen not only looks great, it's also easy to clean and hygienic.

# Karndean in the Bathroom

Karndean Designflooring is warm underfoot and waterproof, making it ideal for your bathroom. With Karndean, you can achieve the look you want but without the practical limitations of natural stone and wood, meaning your bathroom floor will remain in great condition for many, many years to come.

# Karndean in the Living Room

A living room is a space with so many different functions. From a quiet, cosy reading space to a place where you can gather with friends to watch the game, your living room needs to be functional, but it also needs to look great and reflect your unique style. A Karndean floor in your living room can help you achieve all this and still make a real statement. Durable yet stylish, let us inspire you...

# Gluedown ranges

# Why gluedown?

Our gluedown ranges can be customised with design strips, borders, laying patterns and custom cuts, as well as offering our widest choice of colours and formats.

Features such as textured emboss or our premium handscraped finish, wide bevels or flat edges make each range unique to Karndean and serve to highlight the faithful replication of the original wood and stone that inspired each of our products.

# All the benefits of Karndean...

- 
**Realistic**  
 The most realistic designs. Inspired by nature, our products are designed in-house and realistically replicate the look and feel of real wood and stone materials.
- 
**Durable**  
 Compared to other flooring alternatives, Karndean gives you the look and feel of natural products but with the durability and resilience of luxury vinyl.
- 
**Waterproof**  
 Unlike laminate and engineered hardwoods, our floors are impervious to water and will not swell, crack or warp when wet, making them perfect for bathrooms, kitchens, and other busy rooms in the home.
- 
**Low maintenance**  
 A regular sweep and mop with Karndean Clean is all you need to keep your Karndean floor looking great. With Karndean, you also don't have to worry about any sanding, refinishing, staining or varnishing.
- 
**Comfortable underfoot**  
 Our products are much warmer and quieter underfoot, giving you the look of real wood and stone but without the drawbacks of cold tiles or clicking shoes.
- 
**Hygienic**  
 Unlike carpets, our floors don't hold dust, dirt, pollen or other allergens. Our cleaning products also kill 99.9% of household germs.
- 
**Environmentally friendly**  
 We do everything we can to meet and exceed legislation and environmental guidelines. Meaning you can count on the fact you're choosing a safe and environmentally friendly flooring choice.
- 
**Compatible with underfloor heating**  
 Karndean flooring is already warm underfoot, but for added warmth, Karndean is perfectly suitable for underfloor heating systems up to 27°C.

# With the added benefits of...

- 
**Wide range of designs**  
 Inspired by a breadth of natural woods and stones across the full colour spectrum, you have a choice of over 150 striking designs and formats to choose from across our five gluedown ranges.
- 
**Design capabilities**  
 Our gluedown ranges can be personalised with design strips or complementary borders. Gluedown can also be curved and cut to fit into even the most awkward space.
- 
**Suitable for any budget**  
 We offer products at different price points throughout our gluedown collection, ranging from our most affordable range, Knight Tile, up to our most premium collection, Art Select.
- 
**No expansion gap required**  
 No need for an expansion gap – can lay straight up to the skirting board without removing.

Full of charm and character, our premium Art Select wood collection brings the natural beauty of real wood to life in your home.

Through meticulous attention to detail and careful selection of some of the most beautiful and inspiring natural woods, our Art Select wood collection includes our most intricate designs and realistic embosses.

Each plank is handcrafted to reflect the unique grains, knots and textures of natural wood, but unlike real wood, we're able to design a floor that's not only beautiful and realistic, but is also practical.

Everything that a beautiful wood floor should be, and so much more, each of our Art Select woods tells its own story.

# Choosing design components

## Design Strips

Design strips are narrow pieces of luxury vinyl tile which can be put between our planks and tiles. They allow you to finish off the design of your floor with some realistic touches, such as adding a strip to create a grout effect between tiles (example on page 130), or between planks for a ship's decking effect (example on page 118).

Design strips are available in a variety of colours and widths. The wider the strip, or bolder the colour, the more impact it will have and the beauty of our strips versus real grout is that they won't stain or fade and they don't have to be sealed.

The choice of colour is completely up to you. You may want to choose a design strip in a colour that matches the wall tiles in your bathroom, for example, to help tie in elements that are already in your room to your new floor. Alternatively, you could choose a colour which helps the overall look of your floor feel either more contemporary or more traditional, enhancing the design of the product you've chosen.

## Decorative Borders

We offer a wide variety of border designs in a selection of colours. These designs often feature two colours, one in the same as the main floor you've chosen, which acts as the background of the design, and another contrasting colour which is used in the main pattern. We also have a new border design; Accent, which is made from just one product, playing with texture and bevels rather than colour, for a more seamless, contemporary look.

Some products have multiple borders available, so use the colourful range key and product code listings on the following pages to discover all of your options.

Using design strips to create a border is also a popular way to frame your room. Our brochure has examples throughout of how design strips can be used by themselves or in multiples to add a border around the room.

Don't worry if you can't find a pre-designed border to match your chosen floor; we also offer a custom design service if you would like a design in a colour not shown.

## Features

We also offer three pre-designed features that can be combined with the majority of our floors to add a statement centrepiece to any room. See page 136 for details.

We offer a range of design extras to allow you to add your own Designflooring inspiration to your floor. Throughout this brochure you will find examples of ways to use design strips, borders and features to help create your own unique space.

This fold-out guide allows you to browse the brochure and view available design options at the same time, to help you decide which design strip and/or border will work best for you.

Some of our products are only available with certain design strips. This is because our products come in different thicknesses, so you need a design strip which matches the depth of the product.

The colourful key above each section of the fold-out refers to the product range the strips are available in. To find out if the product you are looking at will work with the design strip, match the colour of the range logo on the product page to the icon next to the design strip.

For more information and guidance about the numerous design options you can add to your space, or our custom design service, please speak to your nearest retailer.

Visit [www.karndean.com/findaretailer](http://www.karndean.com/findaretailer) and enter your city or town, or call our team in Australia 1800 331 170 or New Zealand 0800 442 100

## Tips

- Lay planks on a 45 degree angle, or tiles in a diamond formation, to make narrow spaces such as hallways or bathrooms feel wider.
- Choose a contrasting strip colour to make the design of the product stand out.
- For more of a subtle addition, use a design strip in a similar colour to the main floor, but play around with laying patterns, letting design rather than colour become the feature.
- Borders don't have to just go around the edge of a room. Try using them in a large space or hallway to create the effect of a rug, with the border acting as the edge of the rug, or by placing it around a feature in the room, such as a kitchen island.

**Designflooring components**  
(Fold-out guide)

# Your guide to design features

## 1: Pick your favourite from our standard feature designs

Cartwheel with border

Star

Nexus

## 2: Choose your own colours

We recommend you make the background colour of your chosen feature the same as your floor, then choose remaining colours to coordinate with the finishes in your room.

## 3: Decide on a size

You can select the size of your feature to fit perfectly into any shape of room. Our features come in a standard 3ft size, but can be scaled up or down to suit. Talk to your local retailer who can advise you on getting the right size for your space.

## Looking for a custom design?

If you're looking for something a little bit different, you can design your own unique feature. Take a sketch of your idea to your nearest retailer for help creating a truly custom floor for your home.

■ Canberra LM06 with DS10 5mm design strip and Nexus feature

Loose lay

# Why loose lay?

Our loose lay ranges feature our K-Wave friction grip backing which helps hold the product in place. It creates a strong bond to the subfloor using a combination of weight and friction.

Karndean LooseLay is available in large scale wood look planks and stone look tiles and can help you create a look that works in almost any space. What's more, it's easy to install and can be laid over most existing hard floors. Oh, and it's 100% recyclable!

# All the benefits of Karndean...

- Realistic**  
The most realistic designs. Inspired by nature, our products are designed in-house and realistically replicate the look and feel of real wood and stone materials.
- Durable**  
Compared to other flooring alternatives, Karndean gives you the look and feel of natural products but with the durability and resilience of luxury vinyl.
- Waterproof**  
Unlike laminate and engineered hardwoods, our floors are impervious to water and will not swell, crack or warp when wet, making them perfect for bathrooms, kitchens, and other busy rooms in the home.
- Low maintenance**  
A regular sweep and mop with Karndean Clean is all you need to keep your Karndean floor looking great. With Karndean, you also don't have to worry about any sanding, refinishing, staining or varnishing.
- Hygienic**  
Unlike carpets, our floors don't hold dust, dirt, pollen or other allergens. Our cleaning products also kill 99.9% of household germs.
- Lifetime warranty**  
Not only is a Karndean floor unique to your home, but it is guaranteed to last for years to come.
- Environmentally friendly**  
We do everything we can to meet and exceed legislation and environmental guidelines. Meaning you can count on the fact you're choosing a safe and environmentally friendly flooring choice.
- Compatible with underfloor heating**  
Karndean flooring is already warm underfoot, but for added warmth, Karndean is perfectly suitable for underfloor heating systems up to 27°C.

# With the added benefits of...

- Quick and easy to install**  
All you need is a sound, smooth, dry and dust free subfloor. Karndean LooseLay can be fitted over most existing hard floors\*.
- Individually replaceable**  
Should you need to replace a piece, simply lift the damaged plank or tile and replace with a new one.
- Comfortable underfoot**  
Our products are softer and warmer underfoot than natural wood and stone flooring. Additional cushioning in the backing helps make the product more comfortable underfoot.
- Acoustic qualities**  
Karndean LooseLay is perfect for projects where you want to reduce noise levels in the room below, such as playrooms, bedrooms and garage/loft conversions without the need for underlay.

\* Adhesive may be required for some applications, please refer to installation instructions.

Our Karndean LooseLay wood collection features a wide-ranging palette, such as the distressed, grey hues of Hudson, the deep chocolate tones of Dover and the vibrant copper tones of Winchester. Choose from traditional oak looks, contemporary blends and exotic species, all with our K-Wave friction grip backing that makes Karndean LooseLay unique.

# Karndean LooseLay Wood

# Karndean LooseLay Longboard

LooseLay Longboard is available in our largest plank sizes to date. At 1500mm, Longboard is even quicker to install and makes a real impact in large spaces. Featuring five Australian woods...

## Ironbark

Ironbark is a premium native Australian hardwood recognised for its general durability and resistance to insects such as termites. The natural rouge colour of the original hardwood was an obvious inclusion to our collection because of its beautifully deep hues, varying across the straight and tight cathedral grain elements indicative of the natural product.

Honey Ironbark LLP325

Honey Ironbark LLP325

## Australian Wormy Chestnut

Sourced from the forests of Southern Eastern Australia, the original product needed little treatment as its signature features are part of the reason for its popularity as flooring. The signature gum veins of these boards, full of tonal variation, are formed through the effects of its natural habitat: wildfires, periods of drought and strong winds that cause stunting in the timber's growth. Infestations of worms and beetles create the distinctive insect track features seen within the boards. This divergence within the grain structure and its contrasting tonal shifts form a highly attractive floor.

Australian Wormy Chestnut LLP334

Australian Wormy Chestnut LLP334

## Tasmanian Oak

Distinctively Australian, Tasmanian "oak" actually refers to hardwood that originates from eucalypti timbers sourced from Tasmania. The original boards were sourced from lumber yards in South Eastern Australia.

Tasmanian Oak LLP312

Tasmanian Oak LLP312

## Blackbutt

A quintessential Australian hardwood that takes its name from the lower half of the tree's trunk which is blackened by the fierce forest fires that both destroy, and then renew, the Australian environment.

Embered Blackbutt LLP314

Embered Blackbutt LLP314

## Spotted Gum

The characteristics of the tree makes its planks easily identifiable. The slender trunks have smooth bark which is shed in patches and gives it the spotted appearance.

Our Karndean LooseLay stone collection includes popular stone effects including travertine, concrete and slate, each in a large-format rectangular tile. Choose from neutral colour tones such as the light grey Colorado and the coffee hues of Arizona or introduce a striking statement with the bold colours of Georgia and Texas. Pennsylvania and Nevada offer a twist to traditional tile looks with their textile option.

Rigid core

# Why rigid core?

The premier rigid core locking floor to hide subfloor imperfections.

More than three years work went into the development of Korlok, resulting in a collection of 20 colours from woods sourced across Australia, North America and Europe. Featuring Spotted Gum ranging from the mountains of the Great Dividing Range to the Sunshine Coast of Queensland or Blackbutt from the very north of New South Wales where thick forests merge with the beautiful coastline, Korlok is a collection of beautifully designed woods with superior performance.

Korlok features a number of elements that help both the speed and ease of install, making it perfect for projects that need completing quickly, including drop and lock technology, minimal subfloor preparation and no adhesive. Its proprietary, waterproof K-Core technology also provides a rigid core that allows for installation over most existing hard floors. The pre-attached premium foam backing saves on time, cost and labour as there is no need for a separate underlayment, it also makes Korlok quieter to walk on and ideal for upstairs rooms in your home where you want to minimize noise transfer to rooms below.

# All the benefits of Karndean...

- Waterproof**  
Karndean's waterproof floors stand up to spills of all sizes.
- Kid friendly**  
Karndean floors offer kids a safe and comfortable space to play, and parents a durable, easy-to-clean surface.
- Pet friendly**  
From muddy paw prints to household accidents and anything in-between, Karndean's low-maintenance floors are designed with pets in mind.
- Lifetime warranty**  
Not only is a Karndean floor unique to your home, but it is guaranteed to last for years to come.
- Durable**  
Compared to other flooring alternatives, Karndean gives you the look and feel of natural products but with the durability and resilience of luxury vinyl.
- Comfortable underfoot**  
Our products are softer and warmer underfoot than natural wood.
- Low maintenance**  
Easy to clean with a sweep and mop. Doesn't require sanding, varnishing or staining.
- Compatible with underfloor heating**  
Up to 27°C.

# With the added benefits of...

- 5G® click-locking mechanism**  
Get all of the benefits of Korlok with the added security of the 5G® click-locking mechanism, backed by our Lifetime Warranty. Just one click locks planks in for life.
- Acoustic qualities**  
Reduces noise transfer to rooms below, making it perfect for upstairs bedrooms, playrooms or attic/loft conversions.
- Extra large planks**  
At 1420 x 225mm, Korlok makes a big impact, but is suitable for both large and small spaces.
- Quick and easy to install**  
With a 5G® vertical click locking system that allows the installer to quickly drop and lock planks together.
- Featuring Australian Woods**  
Native Australian species featured heavily in this range with Spotted Gum, Blackbutt and Ghost Gum all represented.
- Installs over existing hard floors**  
Korlok can be installed over most existing hard floor coverings.

Washed Butternut RKP8108

Our Korlok range features 1420mm x 225mm planks with proprietary K-Core technology, a 5G<sup>®</sup> locking mechanism and a specially formulated acoustic backing. Together these layers form a product that is strong and stable, and able to be installed quickly and easily over most existing hard floors, as well as over imperfect subfloors. Plus, Korlok offers impressive acoustic benefits in reducing noise transfer to rooms below.

# Korlok

Where we sourced our inspiration for Korlok...

## Spotted Gum

The Spotted Gum tree flourishes in coastal areas along the eastern seaboard of Australia, ranging from the mountains of the Great Dividing Range to the sunshine coast of Queensland. Large amounts of sapwood can be seen within the boards and this adds to the blend of features that make the product so distinctive. Even when coloured, the sap creates a tonal plank that will work in all interiors.

Weathered Spotted Gum RKP8119

## Australian Ghost Gum

These boards were taken from the evergreen, fast growing species that is native to central Australia. The linear grain is caused by the tree's speed of growth and results in beautiful colour variation. This variation in colour hues creates a striking canvas that will add impact in any interior yet will also work with many other objects to create a harmonious space.

Australian Ghost Gum RKP8120

## Blackbutt

A quintessential Australian hardwood that takes its name from the lower half of the tree's trunk which is blackened by the fierce forest fires that both destroy, and then renew. These boards were sourced from the very north of New South Wales where thick forests merge with the beautiful coastline. Great care was taken to retain the oozing sap lines that add to the distinctive linear grain and bleed into the timber.

# Environmental

## Karndean Designflooring and the environment

At Karndean Designflooring we find inspiration for our products in the beauty of the natural world and feel passionate about bringing this into every product we create. In order to keep our environment protected we do everything we can to continuously improve our manufacturing processes to ensure sustainability whilst delivering best value. We have always aimed to make stylish and durable floors with the lowest possible impact on the environment, and have never had to compromise quality or performance in order to comply with legislation or meet environmental requirements.

Karndean Designflooring is a member of the Green Building Councils of Australia and New Zealand and complies with their requirements under GreenStar. All Karndean products and accessories are manufactured in facilities certified to the ISO 14001 Environmental Management and ISO 9001 Quality Management International Standards. Our approach is based on the use of recycled materials in our floor coverings and ensuring that the finished product is suitable for recycling if required.

## What's more...

- All of our packaging is made using recycled material, which we continually review to ensure that it is environmentally friendly and fit for purpose
- We use individual logistical solutions to efficiently and effectively transport our products
- Our storage facilities use high density racking to maximise capacity and minimise impact
- Our offices are introducing innovative energy saving techniques
- We are members of the Green Building Council Australia (GBCA) and Green Building Council New Zealand (NZGBC)
- Our products qualify for eco-points towards GreenStar building projects
- All of our adhesives are water based, solvent-free, have low VOC emissions and are GreenTag certified

## GreenStar GreenTag™ certified

The majority of Karndean luxury vinyl ranges are fully certified to Global GreenTag, the third party multi-criteria, consensus based and externally verified Type 1 eco-labelling program. This is one of the largest product sustainability certification systems in Australasia and the only certification mark approved by the Australian Competition and Consumer Commission (ACCC).

GreenTag comprises two certification systems and the majority of Karndean Designflooring luxury vinyl is certified under both.

## LCARate™

Life Cycle Analysis is for all products and all rating tools that engage LCA with separate output called an Environmental Product Declaration (EPD), which is a summary LCA report used for certain credits in some rating tools for GreenStar.

## GreenRate™

GreenRate is a straight Type 1 eco label developed to meet the requirements of specific green building rating tools. It includes indoor environmental air quality: volatile organic compounds compliant (IEQ VOC) and reduced exposure to pollutants. GreenRate is offered in three levels of quality from Level 'C' up to Level 'A' relevant to GreenStar in Australia and New Zealand.

Karndean Designflooring LVT ranges and adhesives are fully certified under GreenStar GreenRate Level 'A', plus under international FloorScore Indoor Air Quality Certification for low emitting VOC's. Also certified to LCARate "silver streamline".

Learn more and download Karndean Designflooring's GreenTag certificates on our website.

Visit [karndean.com/eco](http://karndean.com/eco).

Manufactured to ISO 9001

## The future

Our continued product innovation focuses on reducing our environmental impact and complying with environmental legislation and recognized certifications worldwide. Our aim is to remain the leading supplier of LVT flooring and to have a market-leading environmental record of achievement through the development of sustainable products and processes.

# Transferable Purchase Warranty

If you purchased your Karndean Designflooring through a Karndean Retail Partner your warranty will have the added benefit of it being transferable. This means that if you sell your house within your guarantee period, you can pass the warranty on to the new owners.

To qualify for a transferable warranty, you must:

- Adhere to the terms and conditions outlined in the Purchase Warranty
- Purchase from one of our retail partners and they will provide us with your email address to enable us to send you your transferable warranty

For more information or to obtain your Purchase Warranty, please speak with your local flooring retailer or contact our **Customer Service Team**.

The lifetime residential warranty is defined as 35 years and protects against product wear out and manufacturing defects. What's more, the warranties are now transferable to any future owners

(subject to the terms and conditions of the Transferable Purchase Warranty).

**Lifetime  
Transferable  
Warranty**

# Cleaning and maintaining your Karndean floor

Karndean Designflooring is hardwearing and easy to look after. Our enhanced surface treatment helps protect against everyday wear, spills and scuffs. This makes it easier and more environmentally friendly to clean and maintain, giving you peace of mind that your Karndean floor will look great for years to come.

We have a dedicated section on the website with videos which explain how best to look after your Karndean floor and covers lots of frequently asked questions from our customers. Visit [www.karndean.com/cleaning](http://www.karndean.com/cleaning) for more information.

We also have our own Floor Care Kits that you can order from your local retailers including everything you need for a simple cleaning routine.

## Inside your Floor Care Kit

Regular cleaning with a pH neutral cleaner such as Karndean Clean will help keep your floor at its best.

Over time you may want to treat your floor to some extra care. We recommend every six to twelve months, depending on wear, that you strip and refresh your floor using Karndean Remove and Karndean Refresh, to further enhance its look and durability.

### Colour & Pattern Reproduction

We are careful to make sure our brochures are accurate and printed to very high standards, but photography and printing cannot always create a perfect representation of our products. For this reason we strongly recommend that you look at a sample of any product you are considering before placing your order.

All of our products are inspired by things we have seen in the natural world and just like variation in colour and detail is part of the beauty of nature, it is also a feature of some of our designs. This means that with some of our products you will see natural variation when your floor is laid. If in doubt, ask your retailer to show you a larger sample of the product.

We love developing new ideas and improving our existing designs. Part of our policy of continuous improvement means that we may add, change or withdraw products from our ranges. We hate to disappoint and will always try to work with you to find an alternative design that you love so much.

**Karndean Designflooring** owns all their designs and are protected by copyright.
