CRL GRS Glass Railing Systems and Components

**Building Glass Railing Systems
Safer, Stronger, With Brilliant Transparency**

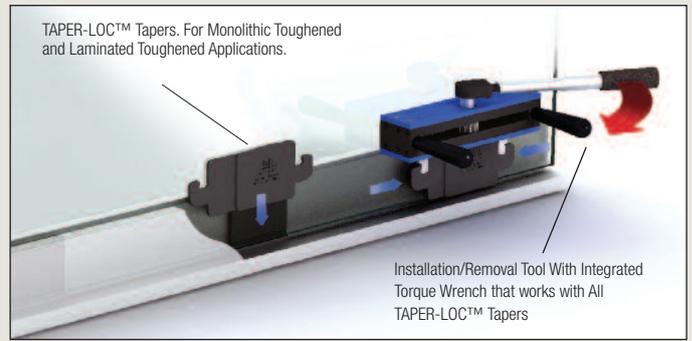

CRL's GRS Glass Railing Systems for interior and exterior applications are designed to provide an attractive 'all-glass' frameless look to view-oriented residential or commercial projects. Designed for monolithic or laminated toughened glazing, this high quality system also serves as an effective wind barrier, further enhancing the outdoor environment. CRL offers a variety of Base Shoes, Cap Rails, Cladding, Corners, Brackets, and Accessories. Custom fabricated railings for project specific requirements are also available.

TAPER-LOC™ X

DRY GLAZE RAILING SYSTEM

- Glass Railings Designed, Tested, and Engineered by CRL for Commercial or Residential Applications
- Reduces Installation Time By 50%
- Supports 12 mm (1/2"), 15 mm, and 19 mm (3/4") Monolithic Toughened Glass
- Also Designed for Laminated Glazing Applications
 - 13.52 mm (9/16")
 - 21.52 mm (27/32")
 - 25.52 mm (1-1/16")

1 Adhere TAPER-LOC™ L-Setting Blocks to the Bottom edge of Glass.

2 Install TAPER-LOC™ Tapers with CRL's TLK9 Installation/Removal Tool to lock the glass securely in place.

3 Roll in the Glazing and you're Done.

The installation process just got easier with CRL's patented Horizontal TAPER-LOC™ dry glazed design. Designed for both residential and commercial applications, this is just the system architectural railing installers have been waiting for. This new system will reduce your installation time by more than 50%, and has been tested and engineered to meet the strictest building code requirements.

Monolithic Glass Taper Set

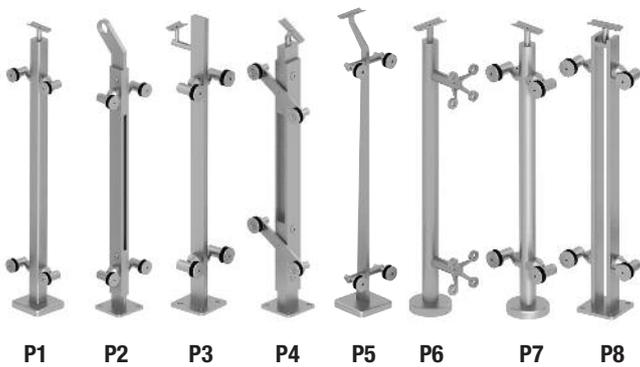

Laminated Glass Taper Set

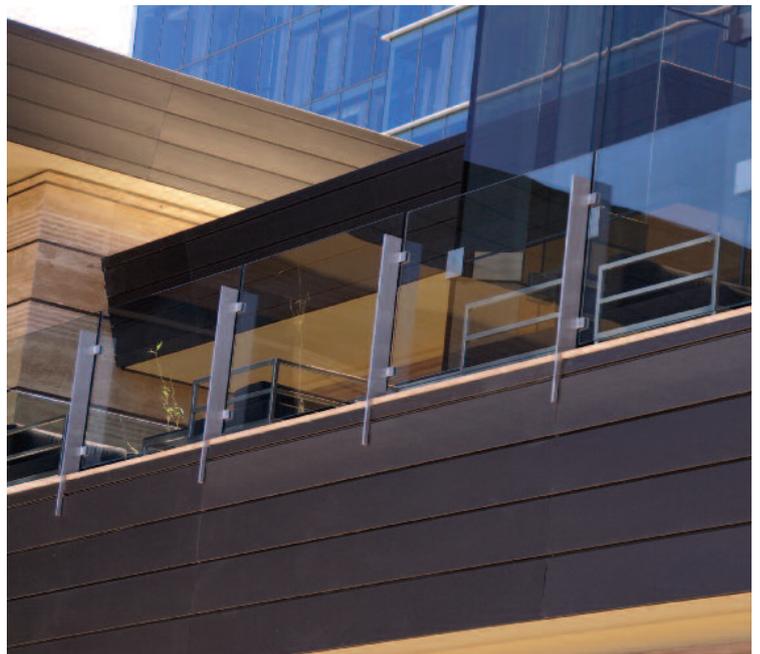

CRL P-Series Post Railing System

CRL manufactures a comprehensive selection of Post Railing Kits that combine the durability of stainless steel components with innovative designs and engineering. Designed for interior or exterior hand rail and guard rail applications, these low maintenance stainless steel posts come ready to install.

CRL SRS Standoff Glass Railing System

CRL is now manufacturing Standoff Railing Systems. By specialising in the design and manufacturing of this innovative system, we offer you the ability to create custom railings that will address project-specific criteria. Rest assured that the products we offer will represent the current evolution of the railing industry because product development is an ongoing process at CRL.

CRL Glass Windscreen and Pool Surrounds

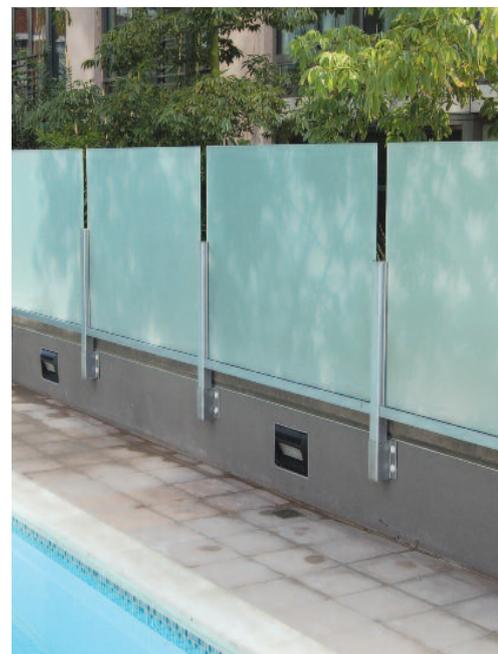

CRL's Frameless Glass Windscreen Base Shoe System and Frameless Windscreen Brackets are designed to provide an attractive, maintenance-free glass wall that will enhance any residential or commercial application. This system offers virtually unobstructed views for glass windscreen or fencing requirements. (Not designed for guard rail applications). CRL's Frameless Windscreen Systems are innovative glass wall systems that provide an almost invisible "frameless" look without vertical posts used between the panels of glass. They are solely supported from the bottom by aluminium base shoes or high strength stainless steel clamps.

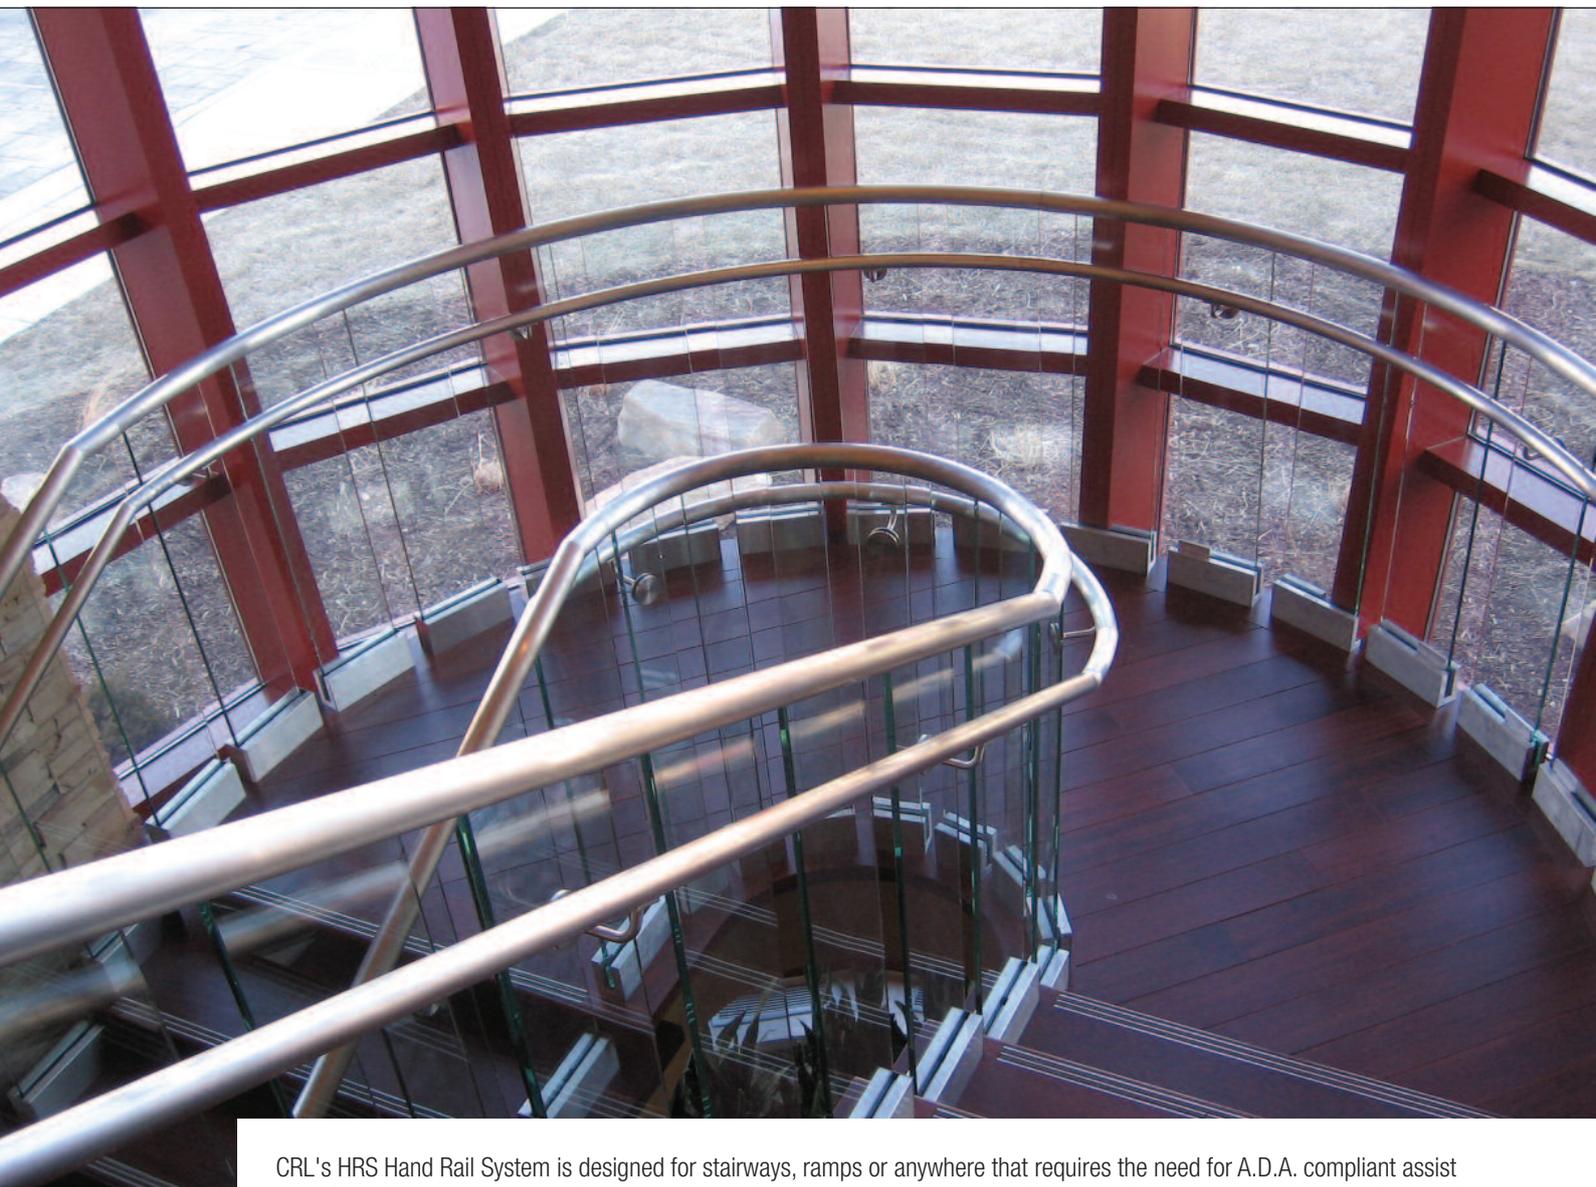

CRL AWS Aluminium Windscreen System

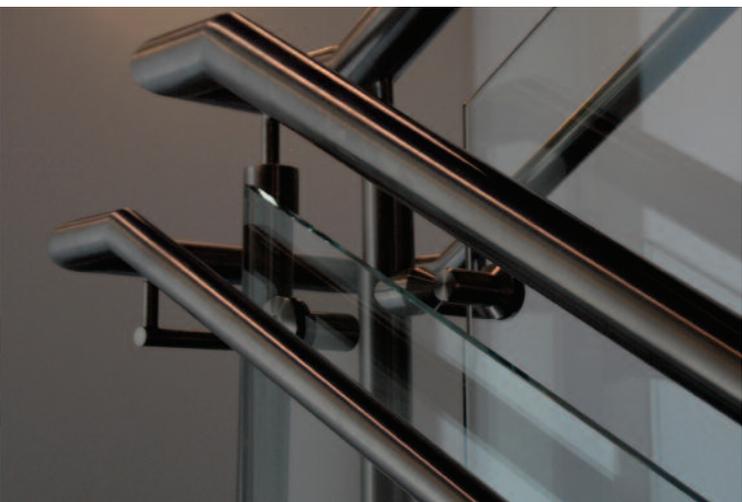

The AWS Aluminium Windscreen System was developed to provide an attractive, maintenance-free glass wall that will enhance any residential or commercial application. All AWS Systems can be used in conjunction with a concrete slab, block wall or individual footings. If our stock components do not fit your application, allow us to design a system that can. CRL has the ability to design, engineer and fabricate a custom system that will satisfy not only your need for safety and security, but also your artistic tastes.

CRL HRS Hand Railing System

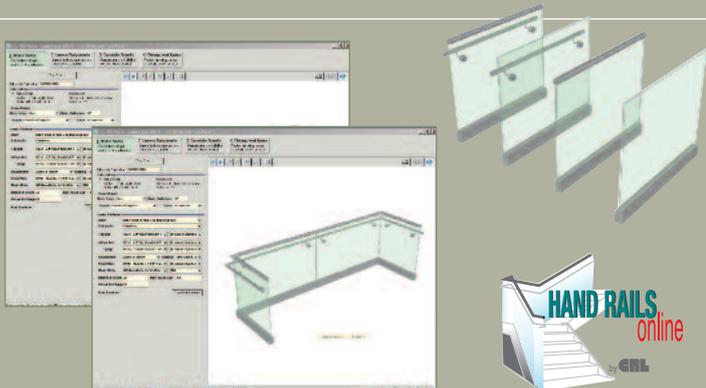

CRL's HRS Hand Rail System is designed for stairways, ramps or anywhere that requires the need for A.D.A. compliant assist rails. CRL offers a wide range of component parts for almost every application. Offered in five standard architectural finishes for wall mount, post mount, and glass mount applications. Custom fabrication and finishing is also available.

- Produces a Complete Quote Package Instantly From Your Desk Top
- Produces a Full Colour 3D Rendering and Dimensioned Plan View for Field Installation
- Generates Quotes/Orders in Minutes
- Allows You to Order Material Directly From Your Computer
- Capable of Producing Pick and Pack or Fabricated Railing Systems
- Determines All Material Quantities Needed for Each Project
- Produces All Glass Sizes Needed for Your Railing or Windscreen Job

CRL ARS Aluminium Railing System

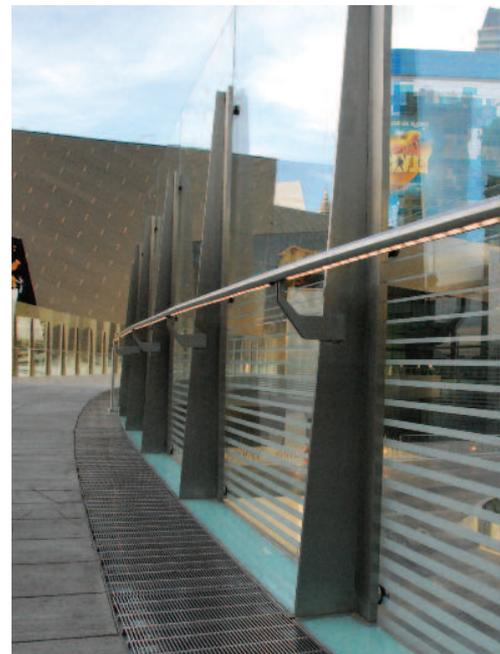

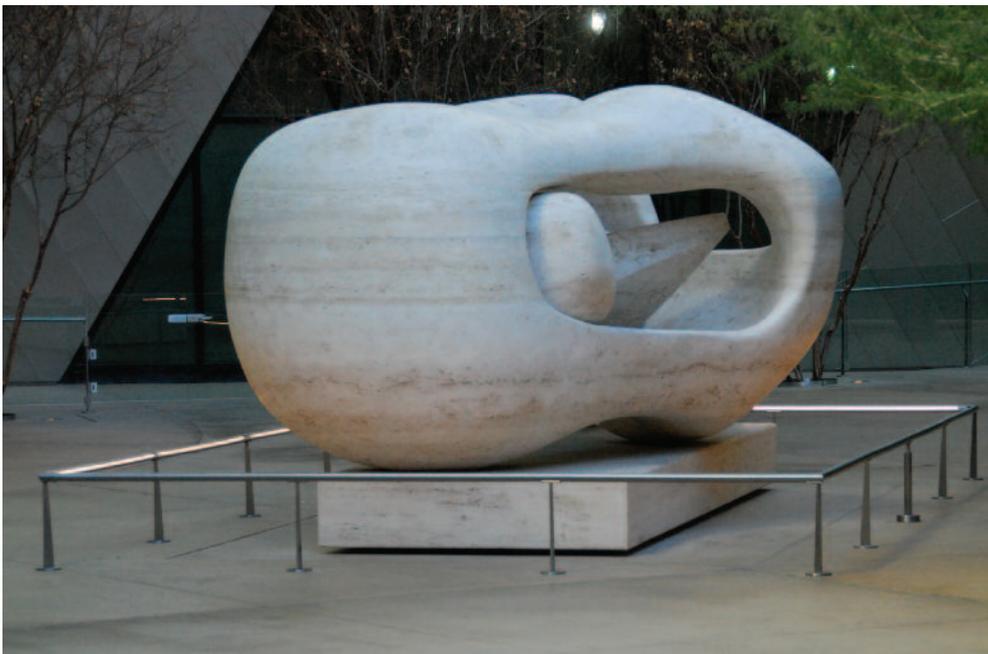

CRL's high quality, versatile commercial or residential 200, 300, 350, and 400 Series Aluminium Railing Systems are manufactured from extruded aluminium framing members all of which utilize toughened glass, aluminium pickets, cast infills, and stainless steel cable that is engineered to meet applicable building codes.

Custom Applications

CRL has the ability to design, engineer, and fabricate almost any architectural design. Most recently, CRL had the opportunity to work on the City Center Las Vegas project to develop and supply a number of products that include custom fabricated stainless steel LED lighted railing and handrail systems, custom glass wall systems and architectural metals.
