- ✓ Custom machined to architects desired design criteria
- ✓ Lightweight and easy to install
- ✓ Offers a broad design scope and can be easily used with other materials
- ✓ Can be recycled

KEY-BOARD PRODUCT SUMMARY

SOURCING AND SPECIFICATIONS SIZE AND THICKNESS

KEY-BOARD is 100% Australian Made plasterboard produced from top quality materials from Australian suppliers to meet our clients' architectural requirements.

KEY-BOARD Plasterboard offers a vast range of standard sheet sizes & thickness, based on client's requirements. These can be custom cut and shaped to suit your architectural specifications. Sheets come with a Recessed Edge for your convenience to be flush joined into existing plasterboard. Consult **KEYSTONE** for best options.

ACOUSTIC OPTIONS

Our manufacturing techniques allow for a vast variety of patterns, borders, hole and slot sizes, to get to that next level with acoustic customisations. Advanced compressed perforation techniques and backing materials are also used to further optimise the acoustics.

- ✓ Perforated and slotted panels are available in five standard patterns
- ✓ Acoustic Amplification using K100 acoustic backing

INSTALLATION OPTIONS

KEY-BOARD Plasterboards are manufactured to be installed by a builder or nominated contractor. A vast benefit of **KEY-BOARD** plasterboards lies in the simplicity and ease of installation.

- ✓ Ceiling panels fixed by standard Key Lock Rondo system or similar
- ✓ Face fixed to furring channels, wall studs or ceiling Battens
