METAL DECK SKYLIGHTING SYSTEMS

Skyspan's Metal Deck Skylights fit all types of metal deck roofing, and are suitable for most hob-mounting applications.

The complete unit is manufactured from 0.7mm zinalume for durability and is designed for economy, a low silhouette and easy installation. The skylight can be supplied in galvanised steel, stainless steel, copper and aluminium if required. The standard dome is formed from 3mm opal acrylic as standard and 4.5mm for larger sizes, depending on unit size. There is no fixing through glazing allowing for thermal cycling.
