# EMBOSSSED ACOUSTIC PANEL COLLECTION

---

## EMBOSSED ACOUSTIC PANEL COLLECTION

The embossed acoustic panel collection represents the latest innovation from Woven Image. This design-led collection embraces the trend towards tactile surfaces and three-dimensional textures, interweaving cutting-edge design with sustainability and commercial performance.

Available in three unique designs; Gem, Zen and Ion have been specially designed to provide a floor-to-ceiling acoustic solution for commercial interiors, and pattern match for continuous wall and double-height installations.

These acoustic panels perform to commercial industry standards for interior wall linings, and achieve excellent environmental credentials, including **Global GreenTag™** (GreenRate Level A), with the use of post-industrial waste streams and low VOC emissions. They are **Red List Free** and have published ingredient transparency with **Declare**, compliant with **LEED v4.1** Building Product Disclosure and Optimisation credit requirements.

# GEM

---

## GEM EMBOSSED PANEL

Gem is the latest design. Reminiscent of expanded mesh and netting, offset diamond-like shapes repeated across the panel. Available in 9 colours, including on-trend natural hues of ochre and cinnamon.

## ZEN EMBOSSED PANEL

Zen is a subtle, vertical rib pattern that mimics the lines and grooves of a Japanese Zen garden, to evoke a sense of simplicity and calm. Echoing corrugated surfaces, such as timber slats and stainless-steel batons, Zen is available in 12 colours including pale neutrals, mid-tones and darker hues of wine, ivy and indigo.

## ION EMBOSSED PANEL

Ion's design is more organic, with its angled facets and intriguing crystalline formation, that references the shapes of origami and folded paper. Available in 9 stunning colourways, including classic onyx and cream.
