and is suitable for both
residential and commercial
applications*

ALUMATE: THE NATURAL WARMTH, APPEAL, BEAUTY AND RICHNESS OF WOOD GRAIN FINISHES FOR ARCHITECTURAL SCREENING

ADVANTAGES

- Non-Combustible
- Low maintenance
- Durable
- Easy installation with Concealed Lock In fixing method
- Come with the rear clip to lock the batten on to
- Profile Coverage: 50mm
- Profile Depths: 50mm, 100mm and 150mm
- Wide range of realistic wood grain finishes, coated on all faces
- Vertical or horizontal installation options
- Mix and match the profiles to create a unique installation

ALUMATE SCREENING LOCK IN INSTALLATION

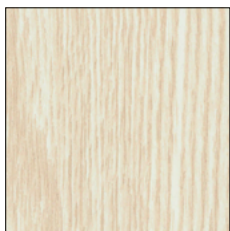

ALUMATE Screening features a lock in installation that utilises a rear clip fixing that allows for quick clean installations achieving concealed fixings while providing a conventional timber batten appearance with a durable finish.

Freedom in orientation will result in completely unique design by simply varying either the spaces between the battens or mixing up the three profiles.

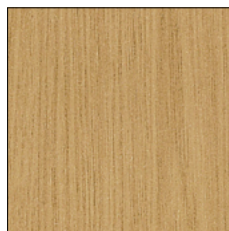

With screw flutes designed right into the profile these will allow end caps to be mechanically fixed without the fear of them ever falling off.
