

Reversible Cladding

Cladding

Options aplenty

Versatile cladding lets both sides shine. Cedar Sales' Reversible Cladding has a vee joint on one face, with a shiplap on the reverse. This tongue and groove cladding also comes in three different profiles to suit a variety of applications. Reversible Cladding, in Western Red Cedar, is economical and ideal for outdoor uses where both sides of the timber are visible.

Reversible Cladding features and benefits

- Traditional profile is bandsawn on the shiplap face for a rustic effect
- 'NS' Series and Centre Groove profile are dressed on both faces for a smoother finish
- Excellent GREEN STAR rating
- Available in Select Tight Knot grade
- Can be secret nailed, but face nailing recommended for external cladding
- Can be painted, or stained to show the natural beauty of Western Red Cedar

Reversible Cladding is ideal for

- Outdoor rooms
- Gazebos
- Exposed frame buildings
- Applications where both sides of the timber are visible

Reversible Cladding
